

## Static mixers – MIXPAC™ MBT / T-mixers

### Technical Data

Sulzer Mixpac presents a new generation of mixing tips – MIXPAC™ T-Mixer. The innovative, compact design, based on the latest mixing technology, allows a reduction in waste volume of up to 40% as compared with established Helical mixing tips. Despite its shorter geometry, the consistent handling of the MIXPAC™ T-Mixer achieves an even more homogeneous mixing result and therefore safer application.
