

Static mixers – MIXPAC™ MEF / MEFX mixers

Technical Data

STATOMIX™ MEF & MEFX Series plastic disposable mixers are not available anymore, the direct replacement mixers are the MFH & MFHX series. The F System mixers feature a unique, state-of-the-art interface design between the static mixer and the cartridge / meter-mix equipment. An enhanced design of the static mixer allows for the mixing and dispensing of higher viscosity adhesives. Higher dispensing pressures also allow for use of smaller mixers, promoting less waste.

Outer Housing	n.a.	Elements	n.a.
