

Static mixers – MIXPAC™ MGQ mixers (Quadro Mixer with screw connection)

Technical Data

Sulzer Quadro® mixer with integrated screw connection is a disposable mixer specifically designed for use with 200 ml to 1500 ml cartridges. The mixer has a single lead 7/8" x 9 thread and can be screwed directly onto most cartridges without the need for a separate retaining nut. The straight outlet allows high dosing rates. By adding a mixer extension onto the outlet, it is possible to apply resin to inaccessible places. The outlet diameter of the mixers with stepped outlets can be adjusted by cutting.

Outer Housing	Polypropylene	Elements	Polypropylene
Retaining Method	Integrated screw connection 7/8" - 9 UNC thread	Color of elements	MGQ mixer: green

Part Numbers	Inside Dia. I.D. (mm)	Number of Elements	Outside Dia. O.D. (mm)	Length L (mm)	Nozzle Dia. A (mm)	Approx. Content Vol (ml)
