## Static mixers – SIKO mixers (20mm)

### Technical Data

This mixer is designed for mixing and filling applications with high flow rates. This series includes our largest mixer elements. The diameter of the mixers is 19.9 mm, and the number of elements varies between 16-48 elements. The solid nylon body has an oversized bell mouthed inlet. The outlet is compatible with the Pro-Tip accessories and also fits 1/2 NPS winding for fastening other accessories.
